

GORONGOSA		JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEP	OCT	NOV	DEC	
		Park is closed for wet season		Floods begin to recede. End of wet season with occasional showers. Nights begin to cool		Said to be the most beautiful months in the park. Everything green. Days warm, nights pleasant.		Effects of dry season creep in as the pans dry up and the vegetation begins to turn brown. Days mild, little chance of rain, winter chill in the evenings.		Winter dry season on the verge of turning to summer. Flowers begin to bloom. Waterbirds competing for the catfish in the drying pans. End of September brings first rains.			Summer time! This is a hot time in Gorongosa. Rainy season begins to build in December. Park closes mid December.

NKWICHIL LODGE		JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEP	OCT	NOV	DEC
		Rainy season (Green season). Lake flat like a mirror. Animals like zebra/buffalo come close to lodge. Only ever sporadic rains. March is the annual community Canoe Race .			End of green season - green bush, grass long - great birding. Temperature perfect		Mid winter. Temp great during the day and cooler at night. Great round the campfire! Most days clear with fabulous colours. July is the annual Choir Festival in Cobue.		Varies from cool to hot - bush is drying out	Hot dry and hazy - many bush fires around. Trees flower and lose leaves.	Very dry with the occasional rain. Lake extremely clear - great for snorkelling	Hot, slightly humid. Early rains vary with the odd shower. Lake fresh and welcoming. Bush starts to green and birding is excellent!
